Hands-on Exercise No. 2
DigiSkills 3.0 Batch-03
UI/UX & Web flow

Total Marks: 10
Due Date: 21/05/2026

Instructions:

Please read the following instructions carefully before submitting this Hands-on Exercise:

- Use MS Word to prepare exercise solutions.
- You may consult tutorials and videos if the concept is not clear.
- Your submitted exercise will not be considered/counted if:
 - It is submitted after due date.
 - It is not in the required format (.doc or .docx)
 - It does not open, or file is corrupt.
 - It is copied (partial or full) from any source (websites, forums, students, etc.)

Learning Outcome:

In this exercise, you will learn how to:

- Write simple JTBD (Jobs to Be Done) statements from real user needs.
- Create a basic user journey map from search to checkout.
- Identify friction points that stop users from completing purchases.
- Recognize how trust and product authenticity affect user decisions.
- Analyze user behavior instead of focusing only on demographics.
- Prioritize which user problem should be solved first in the design process.

Problem Statement

You are a UX Designer working on a gaming eCommerce store in Pakistan. You are facing a problem that Gamers struggle with:

- Find authentic gaming products
- Discover newly released equipment
- Complete purchases confidently

The team also noticed that many users leave the website before checkout.

Task Requirements

Task 01: Write 1 JTBD Statement

Use this format:

“When I ____, I want to ____, so I can ____.”

Task 02: Create a Simple Journey Map

Write the user’s shopping steps and attach 1 screenshot from any gaming eCommerce website for inspiration.

Task 03: Find 1 Main Friction Point

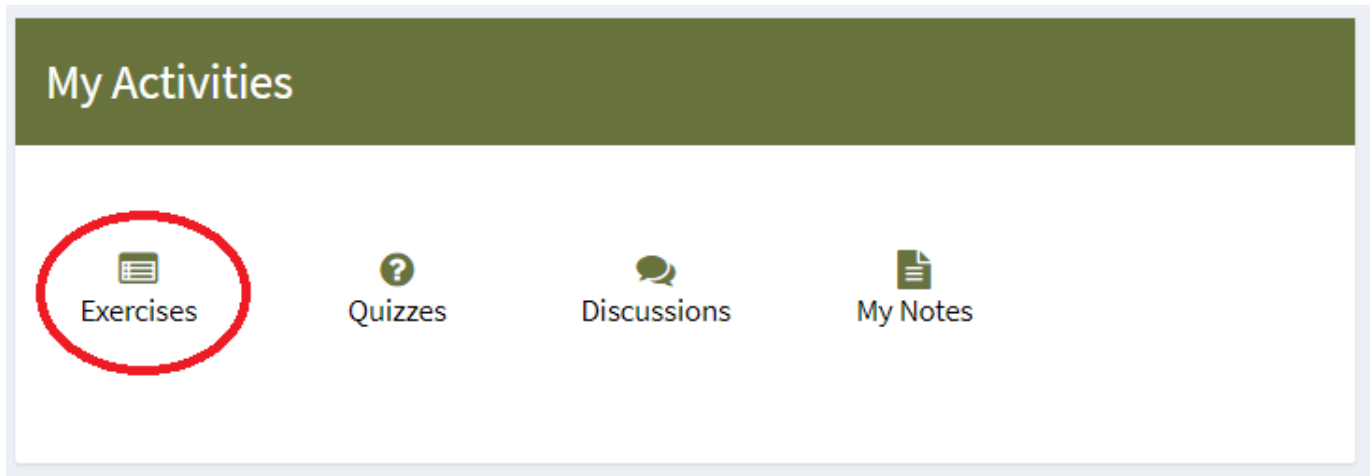

Identify one reason users may leave before checkout.

BEST OF LUCK 😊

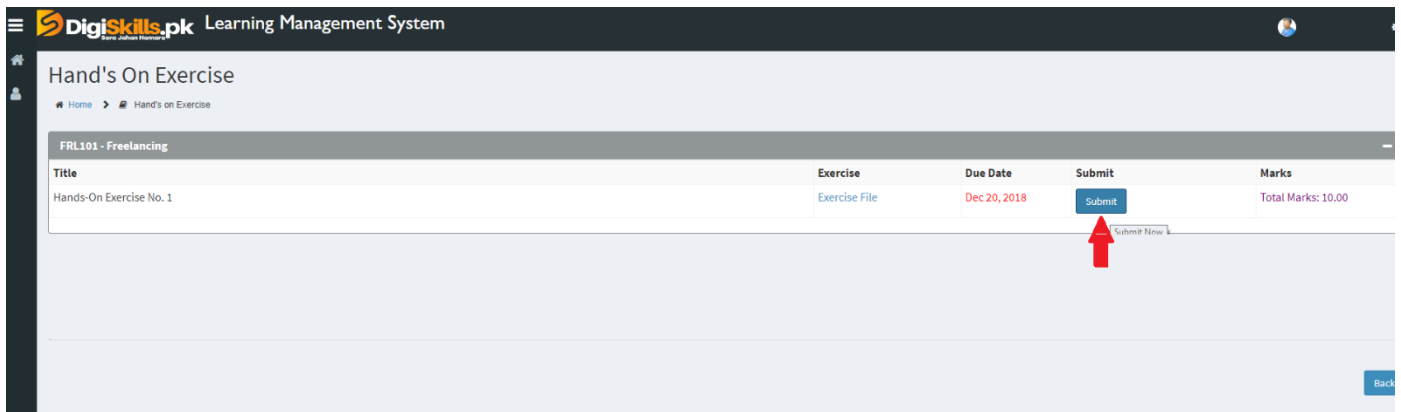

How to submit solution file on LMS?

Please perform the following steps for submitting your solution using LMS:

- 1) Login to the LMS
- 2) Click on the **Exercises** button within the **My Activities** section

- 3) Click on the submit button to upload your Solution.

- 4) Keep in mind to upload your Solution in .doc or .docx format
