Hands-on Exercise No. 3
DigiSkills 3.0 Batch-03
UI/UX & Web flow

Total Marks: 10
Due Date: 11/06/2026

Instructions:

Please read the following instructions carefully before submitting this Hands-on Exercise:

- Use MS Word to prepare exercise solutions.
- You may consult tutorials and videos if the concept is not clear.
- Your submitted exercise will not be considered/counted if:
 - It is submitted after due date.
 - It is not in the required format (doc or .docx)
 - It does not open, or file is corrupt.
 - It is copied (partial or full) from any source (websites, forums, students, etc.)

Learning Outcome:

In this exercise, you will learn how to:

- Generate multiple UI layout ideas quickly
- Avoid overthinking during the ideation phase
- Explore different structural design solutions
- Select the best concept based on clarity and usability

Problem Statement

You are a UX Designer working on a **Gaming eCommerce Store in Pakistan**.

The problem:

“Gamers struggle to find authentic and newly released gaming equipment easily and confidently.”

The team is confused about what the **Home Screen** should look like. Instead of debating endlessly, you will run a **Crazy 8s ideation sprint**.

What Is Crazy 8s?

Crazy 8s is a rapid ideation method where:

- You divide a page into 8 sections or have 8 separate pages
- You sketch 8 different ideas
- You have 8 minutes total
- 1 minute per idea

Task Requirements

Task 01:

Take an A4 sheet or open a Figma frame. Divide it into **8 equal sections (1–8)**. Set a timer for **8 minutes**.

Note:

- No polishing
- No colors
- No detailed icons
- No repeating minor variations
- Each concept must change structure or interaction

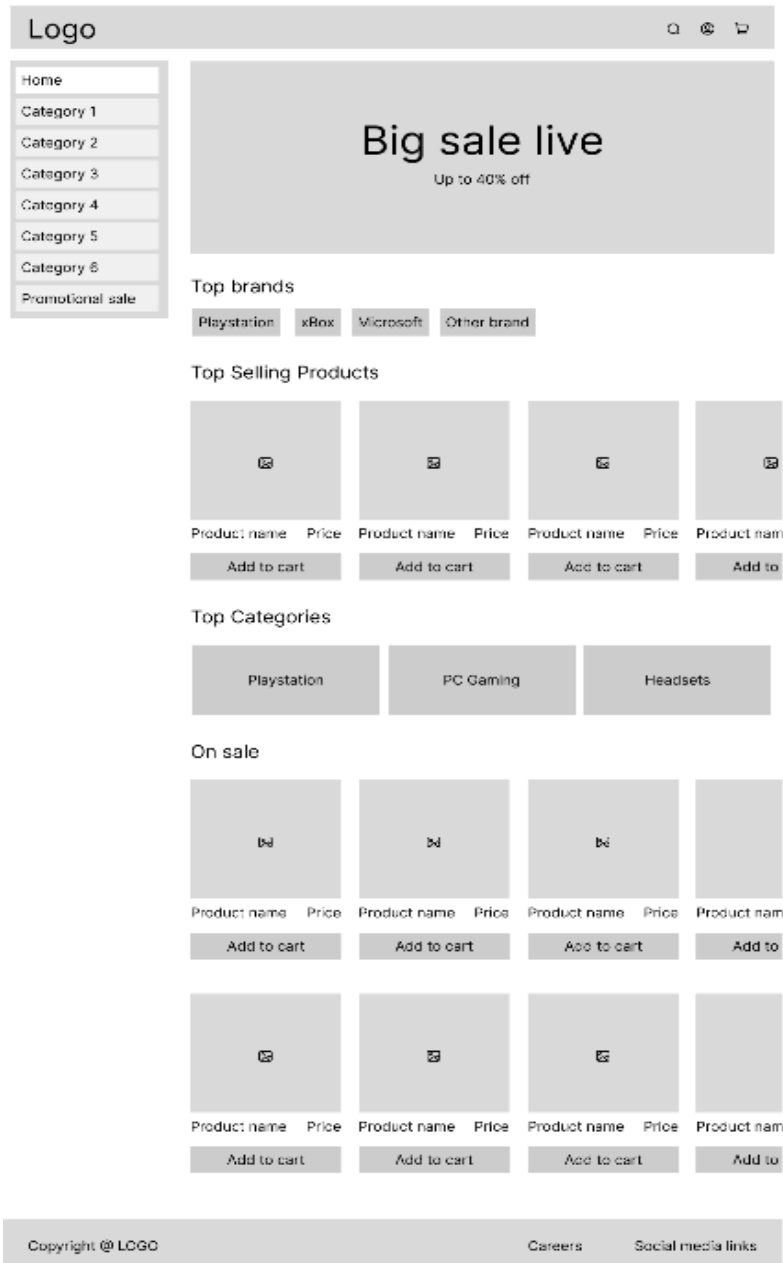

Task 02:

After completing all sketches. Choose your **top 2 ideas** and write short reasons (2-3 lines) for each:

- Why is it clearer?
- What problem does it solve?
- Why is it better than others?

Example:

We are providing one example of screen design. Now you need to create 1-8 similar screen designs yourself, choose your **top 2 ideas** and write short reasons (2-3 lines) for each:

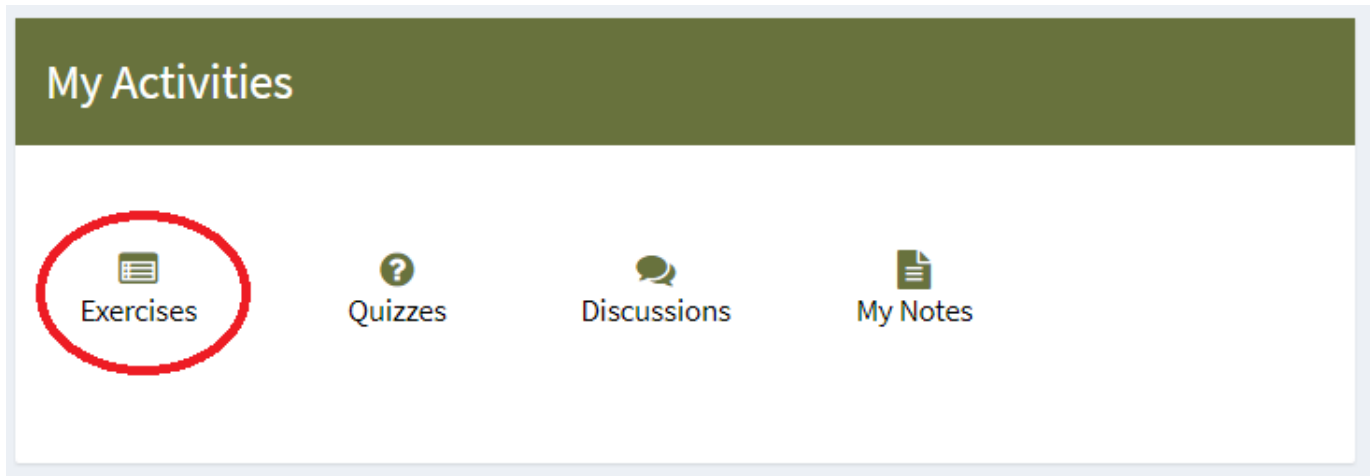

BEST OF LUCK 😊

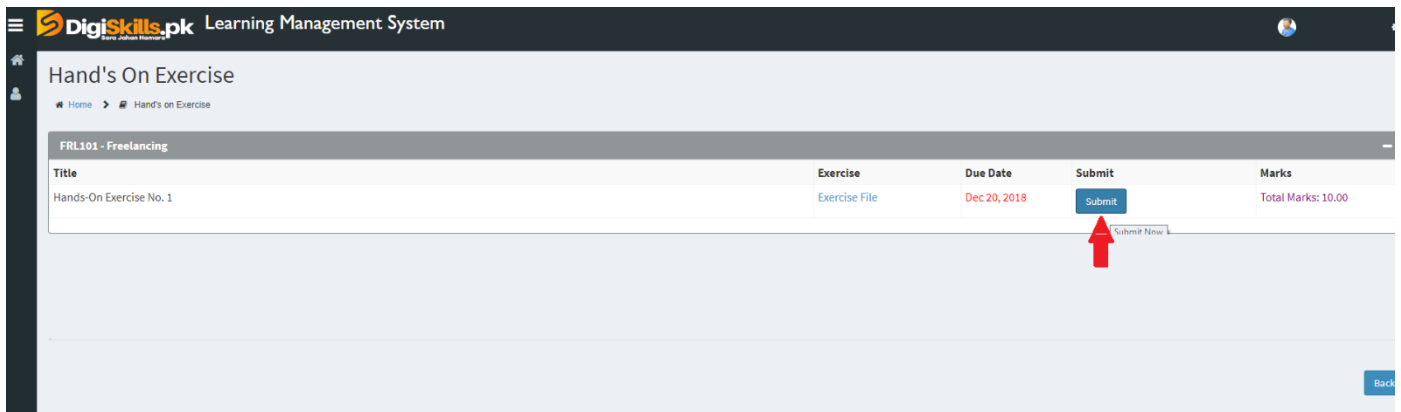

How to submit solution file on LMS?

Please perform the following steps for submitting your solution using LMS:

- 1) Login to the LMS
- 2) Click on the **Exercises** button within the **My Activities** section

- 3) Click on the submit button to upload your Solution.

- 4) Keep in mind to upload your Solution in .doc or .docx format
